*** PARTNER**

When the Wave III field work began, approximately one half of the fielded Add Health respondents were randomly flagged to be part of the Partner Sample. When a respondent with PARTNER = 1 was interviewed and if the respondent had an eligible relationship, the respondent was asked to recruit his/her partner for the study. This relationship is identified as the Couple Sample (CP) relationship in Section 19. Additional information about the Couple Sample is available in the document “sect19 descriptions.pdf.”

**** COUPLE**

The eligible partner, when interviewed for the Couple Sample, has a value of 1 for COUPLE. Original Add Health respondents only have a value of 0 for COUPLE. This variable was used for questionnaire branching and to identify interviews from partners of Add Health respondents. The partner interview data are available in separate files by special request.
