Section 23: Contraception—Audio CASI

Section 23 begins the self-administered portion of the interview (see page iv for a description of audio CASI). A respondent who answers “no” to question 2—that is, who has not had sexual intercourse—is skipped out of the section.

IMPORTANT: See INTRO2, Section 23: Contraception—Audio CASI, notes 1 and 2. For those who have had intercourse, subsequent questions relate to the use of contraception at first and most recent intercourse, and the incidence of sexually transmitted disease.

The next section of the questionnaire has been designed so that you can answer the questions yourself, rather than telling me your answers. When you get to the first question, the computer will “read” the question to you so that you can hear it through these headphones. It will also tell you what to do to enter your answer. We have made it very simple for you to use the computer. Let’s take a look at how it works, by completing a couple of practice questions.

Most questions will allow you to enter only one response. You enter a response by typing the number in front of your choice, then pressing [← Enter]. If you make a mistake and want to change an answer, press the [Esc] key. Here is an example.

Have you listened to any type of music in the past week?

- 1 no
- 2 yes

Some questions allow you to select more than one response. To respond to these, all you need to do is type the number of the answer or answers that you want to choose, then press the [← Enter] twice. If you make a mistake and want to change an answer, press the [Backspace ←] or the [Esc] key. Let’s try one.

Which types of music have you listened to in the past week?

- 1 rock
- 2 heavy metal
- 3 rap
- 4 rhythm and blues
- 5 alternative
- 6 did not listen to any music in the past week

Other questions will ask you to type a number into the computer. With these types of questions, if you make a mistake and want to change an answer, use the [Backspace ←] key. Here is what these questions look like.

How many hours did you listen to any type of music last week?

_____ hours

Good job. Now you are ready to start the questionnaire questions.

Some teenagers have sexual intercourse before they are married and some do not. The next questions are about the experiences you may have had and the birth control methods you've used. These questions are very personal; just remember that all your answers are kept private.
