Section 24: Contraception—Audio CASI

Section 24 begins the self-administered portion of the interview. A respondent who answers “no” to question 1—that is, who has not had sexual intercourse—is skipped out of the section. For those who have had intercourse, subsequent questions relate to the use of contraception at first and most recent intercourse, and incidence of sexually transmitted disease.

The next section of the questionnaire has been designed so that you can answer the questions yourself, rather than telling me your answers. When you get to the first question, the computer will read the question to you so that you can hear it through these headphones. It will also tell you what to do to enter your answer. We have made it very simple for you to use the computer. Let’s take a look at how it works, by completing a couple of practice questions.

Some teenagers have sexual intercourse before they are married and some do not. The next questions are about the experiences you may have had and the birth control methods you’ve used. The questions are very personal, just remember that all your answers are kept private.

1.	Have you ever had sexual intercourse? When we say sexual intercourse, we mean when a male inserts his penis into a female’s vagina.		H1CO1	num 1
12226	0	no [skip to the next section]		
8274	1	yes		
159	6	refused [skip to the next section]		
82	8	don’t know [skip to the next section]		
5	9	not applicable [skip to the next section]		
2.	In what month [and year] did you have sexual intercourse for the very first time?		H1CO2M	num 2
564	1	January		
616	2	February		
699	3	March		
735	4	April		
811	5	May		
1056	6	June		
718	7	July		
565	8	August
