Section 5: Relationships with Siblings

Information about R's siblings is preloaded into the data base:

Respondent in genetic sample no = 0, yes = 1-4 (SIBLING)

First name of sibling 1-sibling 4 (SIBF1-SIBF4)

Last name of sibling 1-sibling 4 (SIBL1-SIBL4)

Relationship to sibling 1-sibling 4 (SIBR1-SIBR4)

Gender of sibling 1-sibling 4 (SIBS1-SIBS4)

This section is for the Genetic Sample only. If SIBLING ≥ 1 , ask Section 5.

[Preload in SIBF1 to SIBF4 the first names and in SIBL1 to SIBL4 the last names of the people with whom the respondent constitutes pairs. Preload in SIBREL1 to SIBREL4 their relationships to the respondent. Ask Q.1 to Q.12 for each of them.]

[If the person with whom the respondent constitutes a pair is a genetic sibling, display:] The next questions are about your relationship with your <SIBREL1>, <SIBF1>, who lived in the same household with you at some time from 1995 to 1996.

[If the person with whom the respondent constitutes a pair is not a genetic sibling, display:] The next questions are about your relationship with <SIBF1> <SIBL1>, who lived in the same household with you at some time from 1995 to 1996.

1. Is {<SIBF1>/ <SIBF1> <SIBL1>} still alive?*

*** H3WS1A**

Several respondents (13) were interviewed with the preload information of an Add Health sibling. Because of this, these siblings were asked questions about themselves, which may have resulted in some inconsistent or unusual responses. These cases can be identified by checking to see whether or not the AID of the respondent is the same as the AID of the first or second sibling.
