Wave V - ACA Medicaid Expansion Data User Guide

CAROLINA POPULATION CENTER | CAROLINA SQUARE - SUITE 210 | 123 WEST FRANKLIN STREET | CHAPEL HILL, NC 27516

Add Health is supported by grant P01-HD31921 from the Eunice Kennedy Shriver National Institute of Child Health and Human Development, with cooperative funding from 23 other federal agencies and foundations.

Acknowledgments

Add Health is a program project directed by Kathleen Mullan Harris and designed by J. Richard Udry, Peter S. Bearman, and Kathleen Mullan Harris at the University of North Carolina at Chapel Hill, and funded by grant P01-HD31921 from the Eunice Kennedy Shriver National Institute of Child Health and Human Development, with cooperative funding from 23 other federal agencies and foundations. Work on the contextual data linkage was supported by grants to Taylor Hargrove and Lauren Gaydos (R21HD095448 and R24AG045061) from the Eunice Kennedy Shriver National Institute of Child Health and Human Development, the National Institute on Aging, and the Network on Life Course Health Dynamics and Disparities. Information on how to obtain the Add Health data files is available on the Add Health website (<http://www.cpc.unc.edu/addhealth>).

Introduction

This data file provides the year in which states expanded Medicaid under the Affordable Care Act. These dates are attached to the location in which Add Health participants were living at Wave V.

Data Structure and Form

The contextual data file contains one observation for each respondent in the Wave V Add Health survey. The first variable is the respondent identifier (the AID), which permits merging these contextual data with other Add Health data files. The other variable, year of ACA Medicaid expansion, is numeric.

The first character of this variable's name, "S", refers to the geographic area of state. The 2nd and 3rd abbreviate the file's content, Medicaid Expansion, while the 4th and 5th characters represent the year in which the data were compiled, 2020. The final three digits indicate that it is the only variable comprising this file.

Data Dictionary

The only variable comprising this file is the year in which states enacted the ACA Medicaid expansion.

Name	Description
SME20001	Year of ACA Medicaid expansion

Missing codes

Two missing data codes are used in this file. They are as follows:

Value	Reason for missing data
99992	Not Applicable
99998	Geocode missing

Add Health is directed by Robert A. Hummer and funded by the National Institute on Aging cooperative agreements U01 AG071448 (Hummer) and U01AG071450 (Aiello and Hummer) at the University of North Carolina at Chapel Hill. Waves I-V data are from the Add Health Program Project, grant P01 HD31921 (Harris) from Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD), with cooperative funding from 23 other federal agencies and foundations. Add Health was designed by J. Richard Udry, Peter S. Bearman, and Kathleen Mullan Harris at the University of North Carolina at Chapel Hill (<http://www.cpc.unc.edu/addhealth>).

The replacement codes of 99992 indicates that the state represented had not implemented the ACA Medicaid Expansion at the time these data were assembled. A value of 99998 indicates that the geocode is missing for a respondent at Wave V.

Source Description

All dates, save that of Nebraska, were provided by the Kaiser Family Foundation¹. The date for Nebraska's Medicaid expansion originated from a news article².
